

Mehul Kumar

Front-end Web Developer

+917023892695 | [Mail](#)

[GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Front-end Web Developer with 2 years of experience in building responsive web applications using HTML, CSS, JavaScript, React, and Redux. Enthusiastic about Web3 and blockchain development. Strong knowledge of UI/UX frameworks and state management libraries. Skilled in collaborating with teams to deliver high-quality projects and continuously learning new technologies.

Work Experience

Freelance Front-end Web Developer

Feb 2024 - Present

Upwork

- Delivered high-quality front-end development services, specializing in React, Redux, and Next.js to create responsive and dynamic web applications. Participated in code reviews and provided feedback for code improvements.

Open-Source Contributor

Oct 2022 - 2023

Hactoberfest | GSSoC

- Contributed to projects demonstrating proficiency in [Js/React, Redux-toolkit, solidity] and familiarity with version control systems like Git, by submitting 29 pull requests to various repositories

Projects

Admin Dashboard

[[Source Code](#)][[Live Demo](#)]

- A React-based CRM dashboard built with Refine, featuring secure authentication, real-time data, and a fully functional Kanban board. It includes company management, dynamic charts, and responsive design for seamless use across all devices.

GeminiFlix

[[Source Code](#)][[Live Demo](#)]

- Developed Gemini Flix, a Netflix clone built with React and Redux for state management, utilizing the TMDB API to fetch movie data. Styled the app with Tailwind CSS and integrated a movie suggestion feature using Google's Generative AI API for personalized recommendations.

MyTube

[[Source Code](#)][[Live Demo](#)]

- MyTube is a YouTube clone built with React, Redux, Tailwind CSS, and the YouTube API, that replicates the interface and functionality of YouTube, including smart search suggestions and voice-activated search for easy content discovery

Core Skills

- Programming Languages: HTML5, CSS3, JavaScript, TypeScript, C++ and Solidity
- Libraries /Frameworks: React, Redux, Tailwind CSS, Next Js, Ant Design and Material UI
- Tools / Platforms: Git / Github, Linux, Vercel, Netlify, GraphQL and Firebase

Education

Ghani Khan Choudhury Institute of Engineering & Technology Malda (WB)
A Centrally Funded Technical Institute (CFTI)
Bachelor of Technology (B. Tech) in EE
(DGPA: 8.27/10)

2020-2024
